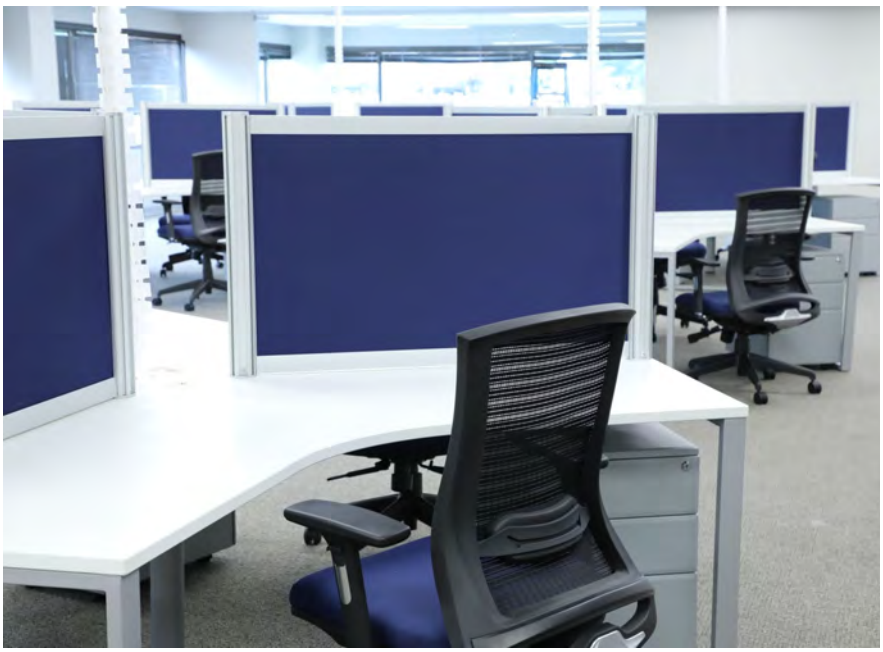
Perimeter

PERIMETER is a unique divider system that creates space division easily and cost effectively. These dividers mount to desk tops with Aluminum posts and can be placed on the perimeters of each station, or split the middles of multiple stations. These beneficial panels do not take any space from one staff member at the expense of another. Perimeter has aluminum frames with frosted acrylic inserts or tackable fabric inserts.
Two heights are stocked at 12" and 24". Widths are 24" to 84". Perimeter works with Lair, Chassis, Express Laminate, and Status desks.



PERIMETER is shown below in its variety of lengths and heights. NEW ELTP Tackable Panels are upholstered in standard black fabric. Custom upholstery options are available in Grade B and Grade C fabrics. At left, panels are shown upholstered in Grade C Momentum Core "Electric."

Perimeter Panels

Panels in 12" and 24" in frosted or tackable fabric options

Reception counters, both straight and L shaped, attach to Perimeter and create reception stations. Our affordable desk products, plus Perimeter and ECA electrical, can create full office "cubicles" without paying for expensive full-height panel systems.

Perimeter panels are now available in **ELTP** tackable options! **Black fabric is standard**.
Custom upholstery available.

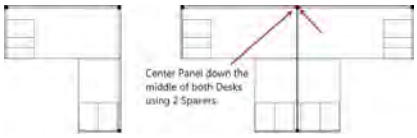
Posts mount with 4 screws through the removable base into the desk top.



Perimeter can mount in the middle of two stations, and NOT take up more space from one employee at the expense of another employee. This is a unique benefit of Perimeter. To mount the center panel down the middle of two symmetrical stations: Use 2 Spacers where shown (Red Arrows)
Use 4 Spacers 4 at the intersection of 4 stations,

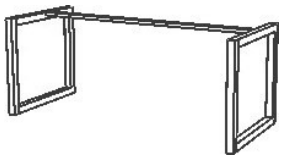
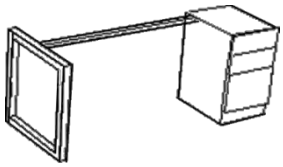
ASSEMBLY / SPECIFICATION HELP BELOW
Lair products are modular for maximum flexibility, but require specification of multiple components to make a complete product.
Tables consist of a table top, a leg or legs and a stretcher bar for support. Line drawings of common configurations are shown below.

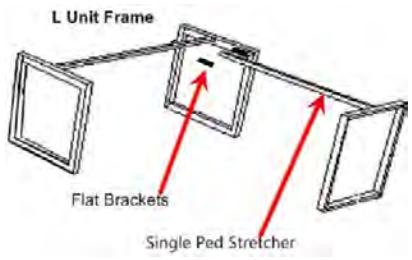


All worksurfaces must have a stretcher BAR for support. Legs are non-directional. Stretcher is in the middle of the leg and attaches to the leg with screws, provided.



Single Ped Stretcher Bar (or Return)
Attaches to "O" Leg on Left and Screws to Top with self-taping screws. May need to be cut to fit with tops less than 71" wide.

The end of a Lair table can be an "O" Leg (left) or a Pedestal (right) shown above.



Chassis

All Dimensions are approximate. Product is metric.

Locks are assorted key numbers. For “keyed alike” add $10 List Price per lock.

Mix and Match 4 Top colors: WT, DW, TS and MW with WHITE Lower chassis.

Chassis End Panels include Grommet holes to add electrical components.

All Lower Chassis are WHITE with choice of 4 top colors:

White/White - Dark Walnut/White - Gray Woodgrain/White - Modern Walnut/White

Chassis Tops and Lair Tops are the same product and are interchangeable.

NEW Lair/Chassis Tops are now stocked in GY Gray Woodgrain.
